## Ham Radio Operators "Show Off" For Southeast Wisconsin residents

### Public Demo of Emergency Communications June 29 - 29

Milwaukee, Wisconsin June 20, 2008– Thousands of Ham Radio operators will be showing off their emergency capabilities this weekend. Just this spring, the news has been full of reports of ham radio operators providing critical communications in emergencies including the Wisconsin and Iowa Flooding, the Kenosha County Tornado in addition to the California wildfires. During Hurricane Katrina, Amateur Radio – often called "Ham radio" - was often the ONLY way people could communicate, and hundreds of volunteer "hams" traveled to Louisiana to save lives and property. When trouble is brewing, ham radio people are often the first to provide critical information and communications.

On the weekend of June 28 - 29, the public will have a chance to meet and talk with these ham radio operators and see for themselves what the Amateur Radio Service is about. Hams from across the USA will be holding public demonstrations of emergency communications abilities.

This annual event, called "Field Day" is the climax of the week long "Amateur Radio Week" sponsored by the ARRL, the national association for Amateur Radio. Ham operators will construct emergency stations in parks, shopping malls, schools and back yards around the country. Their slogan, "Ham radio works when other systems don't!" is more than just words to the hams as they prove they can send messages in many forms without the use of phone systems, internet or any other infrastructure that can be compromised in a crisis. More than 30,000 amateur radio operators across the country participated in last year's event. "We hope that people will come and see for themselves, this is not your grandfather's radio anymore," said Allen Pitts of the ARRL. "The communications networks that ham radio people can quickly create have saved many lives in the past months when other systems failed or were overloaded."

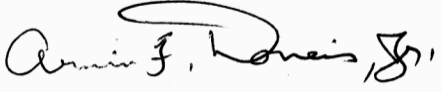

In the Southeast Wisconsin area, the Milwaukee Radio Amateurs Club (MRAC) will be demonstrating Amateur Radio at Pioneer Village in Ozaukee County from 1pm on Saturday, June 28 until 1pm on June 29. They invite the public to come and see ham radio's capabilities and learn how to get their own FCC radio license before the next disaster strikes. The MRAC is one of the oldest amateur radio clubs in the United States having celebrated their 91<sup>st</sup> anniversary this year. More information is available at their website, <http://www.w9rh.org>.

There are 650,000 Amateur Radio licensees in the US, and more than 2.5 million around the world. Through the ARRL's ARES (Amateur Radio in Emergency Service) program, ham volunteers provide emergency communications for thousands of state and local emergency response agencies, all for free.

To learn more about Amateur Radio, go to [www.emergency-radio.org](http://www.emergency-radio.org). The public is most cordially invited to come, meet and talk with the hams. See what modern Amateur Radio can do. They can even help you get on the air!

To Whom it may concern,

I declare that our entire Field Day Operation took place at the old Cedarburg train Depot which is a part of Pioneer Village, just north of Cedarburg, Wisconsin. Pioneer Village is a Historical site and as such is a public location.

A handwritten signature in black ink, reading "Armin F. Doneis, Jr.", with a stylized flourish above the first name.

ARLX004 2007 W1AW.Field Day ea  
Release:  
Remember when you were first bitten by the bug and your interest in  
amateur radio was first stirred? Field Day 2007 is the chance to  
renew that spirit and quickly bring new zest and enthusiasm to our  
ranks.  
All amateurs now have at least some HF operating privileges using  
CW, Digital and Single Side Band. Low sunspot totals will mean  
10-Meter band openings are scarce so be sure to watch for any  
propagation openings that may happen.  
The GOTA station allows control operators the chance to let newly  
licensed amateurs and curious visitors experience some of the magic  
of amateur radio. Make sure you have active Elmers helping mentor  
newcomers. And remember to visit the ARRL Field Day blog at,  
<http://www.arrl.org/blog> and post your Soapbox item and photos to,  
<http://www.arrl.org/contests/soapbox>.  
The deadline for submission of Field Day entries is Tuesday July 24.  
Good luck with FD2007 and enjoy being bitten by the bug. 73.

David Schornack, KC0AA

Germantown City Administrator

N112 W17001 Mequon Rd.

Germantown, WI 53022

Dear David,

You are cordially invited to visit our MRAC/ARRL Field Day event which will be held on Saturday and Sunday, June 28 - 29 at Pioneer Village at 4880 County highway I. This is located 10 miles north of Hwy. 60 which is just north of Cedarburg, WI.

The GPS coordinates are:

**Latitude: 43.454275,**

**Longitude: -87.978225**

We will have several Ham radio stations operating during the time from 01:00 p.m. local time Saturday until about noon on Sunday. Come to see some of our emergency capabilities as well as have a good time. If you'd like to, you could even watch us setting up, which will commence at about 8:00 a.m.

You, being a Ham may operate one of our stations, if you wish.

We will also have a GOTA (Get On The Air) station for those who are not licensed amateur operators to also get on the air.

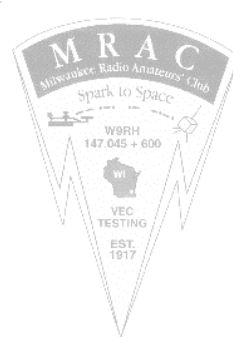

We further invite you to our MRAC club picnic, which is held on that Saturday, June 28 at noon at Pioneer Village.

Sincerely,

Armin Doneis, Jr., (Pancho), KA9OFA  
MRAC Field Cochairman

home phone: (414) 344-4694

cell phone: (414) 852-9841

I, David R. Schornack am the Village Administrator for the village of Germantown, WI and have visited the Milwaukee Radio Amateurs' Club Field site on June 29, 2008.

A handwritten signature in blue ink, reading "David R. Schornack", is written over a horizontal line. The signature is fluid and cursive.

Signature

To Whom It May Concern:

The Educational Activity that was undertaken by the Milwaukee Radio Amateurs' Club for Field Day 2008 was to train a number of operators in the proper use of the ARRL Radiogram.

This activity was conducted by Mark, AB9CD. Following the activity, the operators involved transmitted their ARRL Radiograms for credit. Serviced copies of those messages are attached to the submission.

A handwritten signature in blue ink, reading "Lawrence R. Noldan". The signature is fluid and cursive, with the first name "Lawrence" being more prominent than the last name "Noldan".

Lawrence R. Noldan, NZ9I
